Task Sheet No. 7:
ASSESSMENT TOOL WITH TOS

INSTRUCTION:

As a pre-service teacher, you are task to develop a comprehensive assessment tool aligned with the performance standard and learning competencies based on your Budget of Work. Prepare a valid and reliable assessment instrument (summative exam/performance task) that measures students' knowledge, understanding, and application of the concepts covered. The assessment tool must include a Table of Specifications (TOS) that clearly presents the distribution of test items according to the learning outcomes or topics, instructional time allotment, and cognitive levels based on the revised Bloom's Taxonomy. Ensure that the assessment items are appropriate, clearly worded, aligned with the TOS, and proportionately distributed according to the relative importance of each topic. Submit the completed assessment tool together with its TOS and answer key, ensuring that the materials are accurate, organized, and ready for classroom use.

RUBRIC FOR GRADING:

CRITERIA	EXCELLENT	PROFICIENT	DEVELOPING	BEGINNING
Alignment of Assessment to TOS (20%)	Exam strictly follows the TOS distribution (content areas and cognitive levels). The item counts and difficulty levels matches the TOS. ✓	Mostly follows TOS with only minor deviations in content or cognitive level distribution. The item counts and difficulty levels matches the TOS.	TOS connection is visible but with noticeable imbalance in coverage. The item counts and difficulty levels have inaccuracies.	Weak or no alignment to TOS and many items do not match the intended distribution.
Cognitive Level Appropriateness (Bloom's Taxonomy) (20%)	Items accurately follow the cognitive level breakdown set in the TOS and CG. ✓	Most items match intended cognitive levels but with slight imbalance.	Cognitive levels are present but uneven. It leans heavily toward recall-type questions.	Cognitive levels are mismatched or inconsistent with intended skills.
Content Accuracy and Quality (20%)	All items are accurate, error-free, and reflect proper depth for the quarter. ✓	Minor errors or revisions needed with overall good quality.	Most items are correct, but several items lack clarity or depth.	Several inaccuracies or poorly constructed items.
Clarity, Structure, and Organization of Items (20%)	Questions are clear, logical, well-structured, and free from ambiguity. The instructions are easy to follow. ✓	Questions are mostly clear but could be improved in wording or sequencing.	Questions are understandable but some items are vague or long.	Several questions are confusing, misleading or poorly phrased.
Fairness, Inclusivity, and Bias-Free Content (20%)	Questions are fully inclusive, culturally sensitive, and free from gender, socioeconomic, or linguistic bias. ✓	Questions are mostly inclusive with minor improvements needed.	Questions are neutral but lacks representation or inclusivity.	Some items or questions unintentionally show bias.

PRESIDENT DIOSDADO MACAPAGAL HIGH SCHOOL

8th Street, Barangay Katuparan, GHQ Village, Taguig City

JUNIOR HIGH SCHOOL

Table of Specification for:	TERM 2 - SECOND SUMMATIVE TEST (S.Y. 2026 - 2027)
Division:	TAGUIG CITY AND PATEROS
School	PRESIDENT DIOSDADO MACAPAGAL HIGH SCHOOL
Grade:	7
Subject:	ICT/ FCS
Content Standards	The learners should: 1. Demonstrate an understanding of the fundamentals of the hospitality and tourism industry. 2. Demonstrate an understanding of the occupational Safety and Health (OSH) standards in ICT environments.
Performance Standards	By the end of the term, the learners are able to convert number systems in practical scenarios; and apply skills in food preparation and services following safety precautions.

Week No.	Learning Competencies	No. of Contact Days	Weight	Placement of Items (POI)						Total No. of Items	
				Easy (50%)		Average (30%)		Difficult (10%)		Actual	Adjusted
				No. of Items for Revised Bloom's Taxonomy (Cognitive Domain)							
				Remembering	Understanding	Applying	Analyzing	Evaluating	Creating		
				(40%X25=10)	(20%X25=5)	(20%X25=5)	(10%X25=3)	(5%X25=1)	(5%X25=1)		
1-3	Discuss Occupational Safety and Health (OSH) standards in ICT environments.	6	40%	2	1	1	1			5	
	Differentiate hospitality and tourism.	2	13%	2	1	1				4	
	Explain the scope of the hospitality industry.	2	13%	2	1	1				4	
4-5	Differentiate the various computer number syatems.	2	13%	2	1	1	1		1	6	
	Recognize the seven principles of HACCP in food preparation and service.	3	20%	2	1	1	1	1		6	
		Total	**100%**	**10**	**5**	**5**	**3**	**1**	**1**	**25**

SUMMATIVE TEST2 – TERM 2
GRADE 7 – TLE: ICT / AFA / FCS / IA
S.Y. 2026-2027

Name: _____ Date: _____
Grade & Section: _____ Score: _____

Directions: Read and understand each question carefully. Shade the circle that corresponds the best answer.

(A)(B)(C)(D) 1. Which of the following is an example of a workplace hazard in an ICT environment?
A. Properly arranged computer cables
B. A loose electrical wire on the floor
C. A clean computer table
D. A properly working computer

(A)(B)(C)(D) 2. Why should computer cables be properly organized?
A. To make the computer run faster
B. To make the cables more expensive
C. To prevent tripping and possible accidents
D. To increase the size of the workspace

(A)(B)(C)(D) 3. Carlo notices that a computer's power cord has damaged insulation. What should he do?
A. Continue using the computer carefully.
B. Cover the damaged part with paper.
C. Pull the cord while the computer is running.
D. Stop using the equipment and report the hazard to the teacher.

(A)(B)(C)(D) 4. A student experiences eye strain after using a computer for a long time. The monitor is also positioned too close to the student's face. What is the most appropriate analysis of the situation?
A. The student may be experiencing eye strain due to prolonged use and poor workstation setup
B. The computer needs a larger storage capacity.
C. The keyboard is causing the computer to overheat.
D. Resource amounts owned by the business

(A)(B)(C)(D) 5. Which statement best describes hospitality?
A. The study of computer hardware
B. The production of agricultural crops
C. The provision of services to welcome and care for guests
D. The construction of roads and buildings

(A)(B)(C)(D) 6. Which activity is most directly related to tourism?
A. Repairing a computer motherboard
B. Traveling to another place for leisure
C. Planting vegetables in a garden
D. Preparing a household budget

(A)(B)(C)(D) 7. What is the main difference between hospitality and tourism?
A. Hospitality focuses on guest services, while tourism involves travel and activities at destinations.
B. Hospitality involves only transportation, while tourism involves only cooking.
C. Hospitality and tourism refer exclusively to hotel construction.
D. Tourism provides guest services, while hospitality involves only traveling.

(A)(B)(C)(D) 8. A family visits Baguio City for a vacation and stays at a hotel where staff provide meals and room services. Which statement correctly identifies the two industries involved?
A. Agriculture provides the vacation, and ICT provides the room.
B. Industrial Arts provides the vacation, and agriculture provides the service.
C. Tourism is involved only in the hotel, while hospitality is involved only in travel.
D. Tourism involves the family's trip, while hospitality involves the hotel's guest services.

(A)(B)(C)(D) 9. Which establishment belongs to the hospitality industry?
A. Computer repair shop
B. Hotel
C. Hardware manufacturing plant
D. Agricultural research laboratory

(A)(B)(C)(D) 10. Which of the following is a food service establishment?
A. Computer laboratory
B. Automotive workshop
C. Restaurant
D. Vegetable farm

(A)(B)(C)(D) 11. Why are housekeeping services important in a hotel?
A. They keep guest rooms clean, orderly, and comfortable.
B. They manage the hotel's computer programming.
C. They manufacture hotel furniture.
D. They produce agricultural equipment.

(A)(B)(C)(D) 12. A guest arrives at a hotel and asks to check in. Which department should normally assist the guest with registration and room assignment?
A. Housekeeping
B. Food production
C. Maintenance
D. Front office

Scanned with CamScanner

(A)(B)(C)(D) 13. A hotel receives complaints because guest rooms are clean, but guests wait a long time to receive their room assignments. Which area of hotel operations most directly needs improvement?

A. Agricultural production
B. Front office services
C. Computer hardware manufacturing
D. Food packaging

(A)(B)(C)(D) 14. Which number system uses only the digits 0 and 1?

A. Decimal
B. Octal
C. Binary
D. Hexadecimal

(A)(B)(C)(D) 15. How many symbols are used in the decimal number system?

A. Ten
B. Two
C. Eight
D. Sixteen

(A)(B)(C)(D) 16. Why does a computer use the binary number system to represent data?

A. It uses all ten decimal digits.
B. It does not use numbers.
C. It represents data using letters only.
D. It can represent electronic states using two values, commonly 0 and 1.

(A)(B)(C)(D) 17. What is the decimal equivalent of the binary number 101_2?

A. 4
B. 5
C. 6
D. 7

(A)(B)(C)(D) 18. A student says that 12_8 is equal to 12_{10} because both numbers are written as 12. Which explanation correctly identifies the student's mistake?

A. Octal numbers cannot contain the digit 1.
B. Octal numbers cannot contain the digit 1.
C. The same digits can represent different values depending on the number system's base.
D. Octal and decimal numbers always have the same value.

(A)(B)(C)(D) 19. A student needs to create a simple reference chart showing the decimal values of binary numbers from 0_2 to 11_2. Which chart entry correctly represents the binary number 11_2?

A. 3_{10}
B. 2_{10}
C. 4_{10}
D. 5_{10}

(A)(B)(C)(D) 20. What does HACCP stand for?

A. Health Assessment and Cooking Control Program
B. Hygiene and Cleaning Control Process
C. Hazard Analysis and Cooking Certification Procedure
D. Hazard Analysis and Critical Control Points

(A)(B)(C)(D) 21. Which HACCP principle involves identifying points in a food process where control is essential to prevent or reduce food safety hazards?

A. Establish corrective actions
B. Determine critical control points
C. Establish verification procedures
D. Establish documentation procedures

(A)(B)(C)(D) 22. What is the main purpose of HACCP in food preparation and service?

A. To make food more expensive
B. To improve the appearance of kitchen equipment only
C. To identify, prevent, and control food safety hazards
D. To increase the number of dishes on a menu

(A)(B)(C)(D) 23. A cook checks the temperature of chicken during cooking to make sure it reaches the required safe temperature. Which HACCP principle is being applied?

A. Establish critical limits
B. Establish documentation procedures
C. Establish verification procedures
D. Establish corrective actions

(A)(B)(C)(D) 24. A refrigerator's temperature record shows that potentially hazardous food was stored above the required safe temperature for several hours. What should the food handler do first?

A. Ignore the record if the food looks fresh.
B. Serve the food immediately.
C. Mix the food with freshly prepared food.
D. Assess the food safety risk and follow the established corrective procedure.

(A)(B)(C)(D) 25. A food service manager reviews two proposed food safety plans. Which plan is the better choice for ensuring food safety?

A. A plan that relies only on the cook's experience without keeping records
B. A plan that identifies hazards, sets critical limits, monitors controls, and includes corrective actions and verification
C. A plan that checks food only after customers complain
D. A plan that focuses on appearance rather than food safety hazards

Form No. 1
WEEKLY MENTORING FORM

Name of Pre-service Teacher	John Rex B. Duran
Program/Section	Bachelor of Technical-Vocational Teacher Education Major in Computer Programming
Name of Cooperating School	Pres. Diosdado Macapagal High School
Name of Cooperating Teacher	Ferdinand S. Baltazar
Date Accomplished	Nov. 4, 2024
Mentoring Session No.	3

A. OUTPUT/ACTIVITY EVALUATION AND COMMENTS

INSTRUCTION: Kindly provide comments or suggestions and indicate the total score on the activity accomplished by your assigned pre-service teacher for the week. The pre-service teacher shall review the feedback and use it as a basis for reflection and continuous improvement.

Strength/s

clear categorization and well-explained.
Have real world application.

Weakness/es

- Time allocation

Suggestion/s Need more practice.

Criteria-based Score

B. PRE-SERVICE TEACHER'S EVALUATION AND COMMENTS

INSTRUCTION: Evaluate the pre-service teacher's demonstrated skills in each area based on actual performance during the Field Study experience. Place a check mark (✓) under the rating that best describes the level of skill demonstrated.

Scanned with CamScanner

5 – Extremely Skilled - Demonstrates the skill consistently, independently, accurately, and effectively. Performs beyond the expected level with confidence and initiative.
4 – Moderately Skilled - Demonstrates the skill effectively and consistently with minimal guidance. Meets the expected level of performance.
3 – Developing - Demonstrates the basic skill adequately but may require occasional guidance, practice, or improvement.
2 – Needs Improvement -Demonstrates limited skill and requires frequent guidance, supervision, and practice to perform the task appropriately.
1 – Not Skilled at all - Demonstrates minimal or no evidence of the skill and requires substantial guidance and support.

MAINTAINING EFFECTIVE COMMUNICATION	5	4	3	2	1
Active listening	✓				
Receiving constructive feedback	✓				
Establishing a relationship based on trust	✓				
Identifying and accommodating different communication styles	✓				
Employing strategies to improve communication with cooperating teacher	✓				
Helping the cooperating teacher coordinate effectively with other cooperating teachers	✓				
ALIGNING EXPECTATIONS	**5**	**4**	**3**	**2**	**1**
Working with cooperating teacher to set clear expectations of the mentoring relationship	✓				
Aligning expectations with the cooperating teacher	✓				
Considering how personal and professional differences may impact expectations	✓				
Working with cooperating teacher to set goals	✓				
Developing strategies to meet goals	✓				
FOSTERING INDEPENDENCE	**5**	**4**	**3**	**2**	**1**
Motivating oneself	✓				
Building confidence	✓				
Stimulating creativity	✓				
Acknowledging professional contributions	✓				
Negotiating a path to professional independence with cooperating teacher	✓				
PROMOTING PROFESSIONAL DEVELOPMENT	**5**	**4**	**3**	**2**	**1**
Networking effectively	✓				
Setting career goals	✓				
Balancing work with personal life	✓				
Understanding impact of cooperating teacher as a role model	✓				
Acquiring resources	✓				
TOTAL SCORE	/ 20

C. PRE-SERVICE TEACHER'S EVALUATION AND COMMENTS

INSTRUCTION: Kindly provide comments or suggestions on the performance of the pre-service teacher as a basis for reflection and continuous improvement.

Strength/s

Have student centered application
Have good interaction w/ students

Weakness/es

Time frame.

Suggestions

practice time allocation
