Task Sheet No. 5:
DAILY LESSON LOG

INSTRUCTION:

As a pre-service teacher, you are tasked to develop a **Daily Lesson Log (DLL)** based on the prescribed curriculum (ILAW Framework) and identified Most Essential Learning Competencies (MELCs) or Budget of Work (BoW). Using the provided DLL format and the available learning resources, prepare a complete and coherent lesson log (5 sessions) that demonstrates alignment among the learning competencies and standards, learning objectives, content, learning activities/strategies, instructional materials, assessment, and learning opportunities. Your DLL should reflect appropriate teaching strategies, learner-centered activities, and realistic time allotments that respond to the needs and context of the intended learners. Your completed DLL will serve as a professional teaching document that may be used by your cooperating teacher to review the appropriateness and effectiveness of your planned lesson.

RUBRIC FOR GRADING:

CRITERIA	EXCELLENT	PROFICIENT	DEVELOPING	BEGINNING
Intensions (20%)	Intentions are clearly and appropriately stated, with relevant learning competencies accurately articulated. Strong coherence and alignment are evident across all sections of the DLL.	Intentions are clearly stated, with appropriate learning competencies articulated. Coherence and alignment are evident across most sections of the DLL, with only minor inconsistencies.	Intentions are partially stated, and the learning competencies are somewhat appropriate but may require clarification. There are inconsistencies across several sections.	Intentions are unclear, incomplete, or inappropriate, and the learning competencies are not articulated. Little or no alignment is evident across the sections of the DLL.
Learning Experience Design (20%)	The learning experience is clear, detailed, and logically sequenced. Another teacher can implement the lesson independently without additional explanation. Learning design principles are intentionally and consistently embedded throughout the lesson.	The learning experience is clear and logically organized. Another teacher can implement the lesson with minimal clarification. Learning design principles are appropriately embedded in most parts of the lesson.	The learning experience is partially clear or inconsistently organized. Another teacher may require additional explanation to implement some parts. Learning design principles are partially evident.	The learning experience is unclear, incomplete, or poorly organized. Another teacher would require substantial explanation to implement the lesson. Learning design principles are not evident or appropriately embedded.
Learning Experience for Opportunities and Inclusivity (20%)	The learning experience maximizes available opportunities for integration and contextualization. Activities are highly relevant to learners' experiences and are inclusive and responsive to learners with disabilities, barriers, and diverse or unique contexts.	The learning experience provides appropriate opportunities for integration and contextualization. Activities consider learners' needs and are generally inclusive and supportive of learners with disabilities, barriers, and diverse contexts.	The learning experience demonstrates limited integration and contextualization. Some learner differences and barriers are considered, but support and inclusive strategies are inconsistent or incomplete.	The learning experience shows little or no integration or contextualization. Learners with disabilities, barriers, and unique contexts are not adequately considered.

Scanned with CamScanner

Assessment Strategies (20%)	Assessment strategies are intentionally integrated throughout the session and effectively monitor learners' progression. They generate clear and sufficient evidence of whether learning outcomes have been achieved and inform subsequent teaching decisions.	Assessment strategies are integrated at appropriate points in the session and provide evidence of learners' progress and achievement. The results generally support instructional decisions.	Assessment strategies are present but inconsistently integrated. They provide limited evidence of learners' progression or achievement and only partially inform instructional decisions.	Assessment strategies are limited, inappropriate, or disconnected from the learning experience. They provide little or no evidence of learners' progress or achievement.
Ways Forward and Interventions (20%)	Ways forward and interventions are specific, practical, and actionable, clearly indicating how learning will be extended, enriched, or adjusted based on learner performance and reflection.	Ways forward and interventions are appropriate and actionable, providing reasonable adjustments or extensions based on learner performance and reflection.	Ways forward and interventions are general or partially actionable. Connections to learner performance and reflection are limited.	Ways forward and interventions are unclear, impractical, or absent, with little evidence that learner performance or reflection informs subsequent learning.

Intentions

Meaningful learning experiences are anchored in how we frame them. Start by deciding what you want learners to master by the end of the lesson – keep it clear and simple.
Remember: Understanding your learner's evolving context and designing around it ensure that your lessons connect with and are relevant to them.

Learning Competency and Curriculum Standards: *Write the competency/ies from the curriculum that we are targeting, and the content or performance standards applicable to the sessions*	**Learning Competency:** • Differentiate hospitality and tourism. • Distinguish the types and forms of tourism and the kinds of tourists. • Discuss Occupational Safety and Health (OSH) standards in ICT environments. **Content Standards:** The learners should have knowledge and understanding of: • Demonstrate an understanding of the fundamentals of the hospitality and tourism industry. • Demonstrate an understanding of the Occupational Safety and Health (OSH) standards in ICT environments. **Performance Standards:** By the end of the term, the learners are able to: • The learners apply skills in food preparation and services following safety precautions. • The learners convert number systems in practical scenarios.

Scanned with CamScanner

	Session 1	Session 2	Session 3	Session 4	Session 5
Learning Objectives: *Write the smaller knowledge, skills, or tasks from the competency that the learners will work on and be able to show by the end of the sessions.*	• Differentiate hospitality from tourism by identifying at least three characteristics or services associated with each. • Classify at least eight examples of businesses or services as hospitality, tourism, or both through a concept-sorting activity. • Demonstrate appreciation for the roles of	• Identify and distinguish the types and forms of tourism and the kinds of tourists based on their characteristics. • Match at least eight tourism examples or tourist profiles with their corresponding tourism categories through a matching activity. • Show respect for different	• Analyze given travel scenarios and correctly explain the tourism types, forms, and kinds of tourists represented in at least four out of five scenarios. • Create a tourist persona that includes a travel purpose, destination, and appropriate tourism classifications, then present it to the class.	• Identify at least five OSH practices applicable to ICT environments, including proper posture, screen positioning, cable management, and electrical safety. • Demonstrate at least four appropriate ICT safety practices through a simulated computer workstation	• Analyze at least four ICT workplace scenarios, identify the hazards present, and explain the appropriate OSH measures for each. • Create an OSH safety poster illustrating at least five safety practices for a computer workstation. • Demonstrate commitment to maintaining a

	hospitality and tourism by actively participating in group discussions and respecting classmates' ideas.	travel interests and preferences by listening attentively and considering classmates' answers during the activity.	• Demonstrate openness to different cultures and travel preferences by presenting tourist personas respectfully and appreciating the diversity of travelers.	inspection or setup activity. • Show responsibility for personal and others' safety by identifying unsafe workstation practices and suggesting appropriate corrective actions.	safe ICT environment by promoting proper safety practices and cooperating with group members in completing the poster.
Learner Context: *Write your observations of your learners, and how they have been performing or responding to learning experiences recently. Include strengths, interests, and possible barriers to learning.*

Learning Experience

Learning experience is like a thoughtfully designed journey. Each activity and intersection builds towards meaningful understanding and growth. Identify activities and interactions to help learners gain knowledge, skills, or understanding in a purposeful and coherent way.

Pre-Lesson: *Describe how you will help the learner get ready for the lesson.*	**Pre-lesson activity: "Where Have You Been?"** Ask learners about places they have visited. Show pictures of hotels, restaurants, and tourist attractions to introduce hospitality and tourism.	**Pre-lesson activity: "Guess the Traveler!"** Present short travel scenarios and let learners identify each traveler's purpose to introduce tourism types and kinds of tourists.	**Pre-lesson activity: "Remember and Classify!"** Review tourism categories using travel scenarios. Let learners recall and classify examples from the previous session.	**Pre-lesson activity: "Safe or Unsafe?"** Show pictures of computer workstations and ask learners to identify safe and unsafe practices to introduce OSH standards.	**Pre-lesson activity: "Spot the Hazard!"** Present a picture of an unsafe computer workstation. Ask learners to identify hazards and suggest ways to correct them.

Scanned with CamScanner

Lesson Flow: *Describe the activities that you can implement in 1 or more session to meet your intentions.* Apply the Learning Design Principles, use the prompts below as a guide. Note, not all principles are expected in every lesson. • *Make the objectives clear for the learners* • *Guide learners before letting them try the task on their own* • *Check the state of the learners' well-being, understanding, and mastery over the lesson* • *Connect today's new concepts to past competencies* • *Encourage collaboration among learners* • *Invite learners to reflect on why this matter to them* • *Ensure inclusion for learners' varied abilities, learning styles, and contexts*	**Hospitality vs. Tourism Concept Sort** In small groups, learners receive a card set containing eight diverse businesses/services and classify them into Hospitality, Tourism, or Both, noting at least three distinct characteristics for each category.	**Tourism Types & Tourist Profiles Match-Up** Learners collaborate in pairs to match at least eight scenario cards or profile descriptions to their correct tourism category and tourist type.	**Tourist Persona Workshop** Each group creates a detailed "Tourist Persona" card specifying a travel purpose, destination, and appropriate tourism classification, fostering openness to various cultures and travel styles.	**Workstation Setup & Safety Simulation** Students engage in a hands-on lab activity where they adjust chairs, position monitors at eye level, manage cables safely, and demonstrate at least four proper ICT safety practices.	**Collaborative OSH Safety Poster Creation** Working in small groups, students design and illustrate an OSH safety poster featuring at least five essential rules for a safe computer workstation.

Scanned with CamScanner

Learning Resources: *List down the learning resources that will help you reach your objectives. Ensure that they are available and inclusive.* *Include options and alternatives in case of emergencies.*	• Presentation slides • Concept-sorting mats.	• Presentation slides • Matching activity worksheets and cut-out profile strips.	• Presentation slides • Colored pens, construction paper, and template organizers for designing persona profiles	• Presentation slides • Actual or simulated computer lab equipment.	• Presentation slides • Drawing paper, coloring materials, and rulers

Opportunities for Integration and Contextualization: *Write down any possibilities to meaningfully connect to another learning area, special topic, local context, or technology. Write N/A if none.*	N/A	Integrate Philippine cultural heritage sites as examples of cultural and eco-tourism, alongside local tourist demographics.	Connect to geography and cultural diversity by analyzing regional travel itineraries and practicing respectful intercultural communication.	N/A	Link electrical safety standards to basic electricity and physics concepts.

Assessing Learning

Assessments reveal what learners have gained and what they still need help with. These are helpful in providing you with information to guide your future instruction throughout the entire session.

Formative Assessment: *Create a task, activity or questions to assess learning and provide feedback every now and then.*	**Exit Ticket** Students write 2 differences	**Quick Match Check** Students hold up their matched	**Persona Checklist** A simple pass/fail check on whether	**Workstation Check** Teacher uses a quick checklist to	**Hazard Worksheet** Written check of students' answers

Scanned with CamScanner

Include ways for learners to ask for guidance or support throughout each session. *Remember to provide appropriate accommodation so all learners can demonstrate their understanding (e.g. varied response formats, small group options, visual or auditory supports).*	between hospitality and tourism and 1 business that fits both.	scenario cards for a rapid teacher check.	the group's created tourist persona matches their chosen tourism type.	observe if students correctly set up seating, screen height, and cables.	identifying ICT hazards and correct safety fixes.

Ways Forward

Meaningful learning can also happen beyond the classroom – for both the learners and the teacher. Pause and reflect on what happened today.

Extended Learning Opportunities: *Suggest other learning experiences outside the classroom/class hours that*	Explore online video walkthroughs or virtual 360-degree tours of	Review a family vacation photo album or travel itinerary at home,	Interview a family member or neighbor about a memorable trip they	Check and adjust their own home study or computer setup using the	Look around home or community computer shops for safety signs, cable

learners may want to access to reinforce what they have learned, to spark their curiosities further, or that may provide them support in their areas of difficulty.	local Philippine hotels and tourist spots to spot the difference between guest comfort (hospitality) and travel adventure (tourism).	and classify each trip or activity into its correct tourism type.	took, identifying their travel purpose, destination, and what kind of tourist they were.	OSH guidelines learned in class.	setups, or potential electrical hazards, and sketch a quick note on how to fix any unsafe practices found.
Reflections: *Think about what you need to change for the next session based on what happened today. Is there something the learners are interested in exploring?* *Are there some things you would like to share with your co-teachers, parents, or school leaders about your classroom experience? What would you like your instructional coach to help you with?* *Reflections may be written in brief notes, bullets, or annotations.*

Form No. 1
WEEKLY MENTORING FORM

Name of Pre-service Teacher	John Rex B. Duran
Program/Section	Bachelor of Technical-Vocational Teacher Education Major in Computer Programming
Name of Cooperating School	Pres. Diosdado Macapagal High School
Name of Cooperating Teacher	Ferdinand S. Baltazar
Date Accomplished	Oct. 22, 2026
Mentoring Session No.	3

A. OUTPUT/ACTIVITY EVALUATION AND COMMENTS

INSTRUCTION: Kindly provide comments or suggestions and indicate the total score on the activity accomplished by your assigned pre-service teacher for the week. The pre-service teacher shall review the feedback and use it as a basis for reflection and continuous improvement.

Strength/s

He recognizes guidances and supervision.

Weakness/es

Suggestion/s

He needs more effort, leave a good start.

Criteria-based Score

B. PRE-SERVICE TEACHER'S EVALUATION AND COMMENTS

INSTRUCTION: Evaluate the pre-service teacher's demonstrated skills in each area based on actual performance during the Field Study experience. Place a check mark (✓) under the rating that best describes the level of skill demonstrated.

Scanned with CamScanner

5 – Extremely Skilled - Demonstrates the skill consistently, independently, accurately, and effectively. Performs beyond the expected level with confidence and initiative.
4 – Moderately Skilled - Demonstrates the skill effectively and consistently with minimal guidance. Meets the expected level of performance.
3 – Developing - Demonstrates the basic skill adequately but may require occasional guidance, practice, or improvement.
2 – Needs Improvement -Demonstrates limited skill and requires frequent guidance, supervision, and practice to perform the task appropriately.
1 – Not Skilled at all - Demonstrates minimal or no evidence of the skill and requires substantial guidance and support.
